

# Choose to be safer online.

 **Opt-in to Cyber Safety™**

Norton 360 provides multiple layers of protection for your devices and online privacy, including fast and secure VPN.

## Real-time Threat Protection

Advanced security with antivirus helps protect against existing and emerging online threats to your device, and helps protect your private and financial information when you go online.

## Secure VPN

Enjoy a more secure and private internet connection and access your favorite content in seconds whether you're at home or on the move.

## Dark Web Monitoring<sup>§</sup>

We continuously scan the dark web and private forums looking for personal information and send you notifications should it be found.

## Password Manager

Tools to easily generate, store, and manage your passwords, credit card information and other credentials online – more securely.

## PC Cloud Backup<sup>†‡</sup>

Up to 100 GB of cloud storage to store important files and documents as a preventive measure against data loss due to hard drive failures, stolen devices and even ransomware.

## Parental Control<sup>‡</sup>

Manage your children's activities online. Help them explore, learn, and enjoy their connected world more safely on their PCs or smartphones.<sup>‡</sup>

<sup>§</sup>. Dark Web Monitoring defaults to monitor your email address only and begins immediately. Sign into your account to enter more information for monitoring.

<sup>‡</sup>. Parental Control features are not supported on Mac or Windows in S mode. <sup>‡‡</sup>. Requires your device to have an Internet/data plan and be turned on.

<sup>1</sup>. Cloud Backup features are only available on Windows (excluding Windows in S mode, Windows running on ARM processor). <sup>2</sup>. A trademark of Ziff Davis, LLC. Used under license.
